SWS: Poor families rise to 11.1M

AN ESTIMATED 11.1 million Filipino households increased their number from 10.9 million in 1991, according to a survey by the Social Weather Stations (SWS).

The study, titled "The State of the Nation 1992," was conducted by SWS, a non-partisan research organization. It found that the number of poor households rose from 1.2 million in 1991 to 1.3 million in 1992. The study also found that the number of middle-class households rose from 1.2 million in 1991 to 1.3 million in 1992. The study also found that the number of rich households rose from 0.5 million in 1991 to 0.5 million in 1992.

The study also found that the number of poor households rose from 1.2 million in 1991 to 1.3 million in 1992. The study also found that the number of middle-class households rose from 1.2 million in 1991 to 1.3 million in 1992. The study also found that the number of rich households rose from 0.5 million in 1991 to 0.5 million in 1992.

Noy turns on Catanduanes power plants

MANILA, July 3 (AP) — President Benigno Aquino III turned on the power of two new coal-fired power plants in Catanduanes, a province in the Philippines, on Monday. The plants, which are part of a \$1.5-billion project, will provide electricity to the island and its residents. The president, who is also the governor of the province, said the plants will help reduce the province's dependence on diesel generators and improve the quality of life for its people. The plants are located in the town of Mauban and will have a combined capacity of 1,200 megawatts. They are expected to be fully operational by the end of the year.

You Only GoIN!

Manila, July 3 (AP) — The Philippine National Bank (PNB) announced on Monday that it will be the exclusive provider of financial services for the new PNB-Allied Bank. The bank, which is a joint venture between PNB and Allied Bank, will offer a wide range of services, including banking, insurance, and investment. PNB said that the new bank will be a "one-stop" financial institution, providing all the services that its customers need in one place. The bank is expected to start operations in the near future.

Officials hope IBM first of more firms to come

By Christine A. Amabile
and Barbara Barakat

IBM's recent announcement that it will be a commercial partner in the Coral Triangle Initiative for Resilient and Sustainable Ecosystem Management (CRITIC) is the first of many that officials hope will lead to a "cascade" of other firms joining the effort.

The IBM announcement, which was made in a letter to the U.S. State Department, is a significant step in the effort to protect and restore the Coral Triangle, a region of the western Pacific Ocean that is home to some of the world's most diverse and valuable marine ecosystems.

IBM's announcement is the first of many that officials hope will lead to a "cascade" of other firms joining the effort. The announcement was made in a letter to the U.S. State Department, which is the lead agency for the CRITIC initiative.

There have been a number of studies showing that the use of a computer in the classroom can improve the quality of instruction and the learning experience. One of the most common reasons for using a computer in the classroom is to provide a more interactive learning environment. This can be achieved through the use of software that allows students to interact with the material in a more dynamic way. For example, students can use a computer to simulate a real-world situation, which can help them to understand the concepts being taught. Another reason for using a computer in the classroom is to provide a more personalized learning experience. This can be achieved through the use of software that allows students to learn at their own pace and in their own way. For example, students can use a computer to access a variety of learning resources, such as videos, animations, and interactive exercises. This can help students to learn more effectively and to retain the information for a longer period of time. Finally, using a computer in the classroom can help to reduce the cost of education. This is because computers can be used to create and deliver educational materials more efficiently than traditional methods. For example, a computer can be used to create a virtual classroom, which can be accessed by students from anywhere in the world. This can help to reduce the need for physical classrooms and textbooks, which can save a significant amount of money. In conclusion, there are many reasons why using a computer in the classroom is a good idea. It can provide a more interactive learning environment, a more personalized learning experience, and help to reduce the cost of education. Therefore, it is a good idea to use a computer in the classroom as much as possible.

The collage features a variety of heavy machinery and equipment. At the top left, there's a large crane. Below it, a smaller crane is shown. To the right, a large storage tank is visible. In the center, there's a piece of equipment that looks like a pump or a generator. At the bottom left, a large storage tank is shown again. The collage is a mix of different types of equipment, likely representing the range of products offered by the companies listed.

Dr. Gross said she was disappointed to see information lacking and the FBI was working with the Bureau of Investigation to make sure it was correct.

There are many ways to get a good deal on a car. One way is to buy a used car. Another way is to lease a car. A third way is to buy a new car. Each way has its own advantages and disadvantages. For example, buying a used car is usually the cheapest way to get a car. However, it may not be as reliable as a new car. Leasing a car can be a good option if you don't want to own a car. However, it can be more expensive in the long run. Buying a new car is the most expensive way to get a car, but it is also the most reliable. So, the best way to get a car depends on your needs and budget.

WHEEL OF FORTUNE

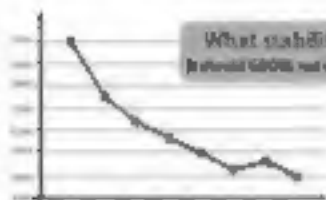

THE EMBARRASSING TRACK RECORD OF A TOBACCO MONOPOLY

In ongoing Congressional debates on Sin Tax Reform, those who wish to protect the status quo are quick with sound bites and scare tactics. "Tobacco excise is a stable source of government revenues." "The tobacco industry is the goose that lays the golden eggs." "There is no unequal treatment between existing and new brands." "Change will hurt the farmers." The list of baseless rhetoric goes on and on.

But will these sound bites stand up to real facts?

Question 1: Does tobacco excise revenue in the current system keep pace with what the Philippine economy needs?

Excise Tax Collection as % of GDP

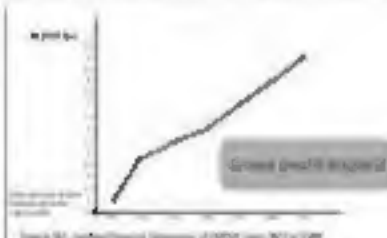

Source: World Bank World Development Indicators, IMF - Global Monitor, and PRR Report No. 15 (2011) Commission, 2010.

The tobacco industry, led by the monopoly, has failed to be a good corporate citizen and **KEEP PACE** with the needs of the Philippine economy. At minimum, tobacco revenues should keep pace as a percentage of GDP. Ideally as in most developing economies, the percentage should GROW.

Question 2: Where did the lost revenues go?

PMPMI profits before merger with PIC... but imagine how much it could be after the merger.

It's clear who benefits under the sector system. Not the Philippine Government or people. But a company that triples its gross profits in six years. Must be a record. How many Filipinos have tripled their pay in six years?

Question 3: What is the STATE of competitiveness in the industry today?

State of Competitiveness in the Industry

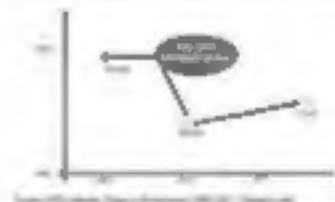

Source: PRR (2011) - Industry Profile

There is no "competitiveness" in the industry. The playing field is not level. 95% brands are passed lower than new brands. The system protects the monopoly and discourages new entrants.

Question 4: What are the effects of the monopoly on those who depend on tobacco as a livelihood?

The tobacco monopoly is hurting the farmers!

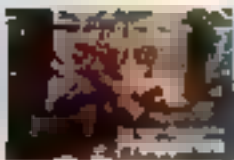

Price of tobacco leaf went down drastically immediately after the emergence of the monopoly. While those favoring the status quo shed crocodile tears for the plight of tobacco farmers, it is a clever ploy since in fact the **BEST THING THAT CAN HAPPEN TO TOBACCO FARMERS IS TO INCREASE THE NUMBER OF BUYERS BY LEVELING THE PLAYING FIELD.**

UNDOUBTEDLY, THE TOBACCO EXCISE SYSTEM IS BROKEN -- AND IT NEEDS TO BE FIXED NOW!!!

Support the Government's push for Sin Tax Reform -- for the Philippines, for the Farmers, and for fair market practices.

New era for justice

CIVILILIZATION has never been so close to the people as it is today. The dawn of a new era for justice is at hand. The people are no longer the passive subjects of a few rulers. They are now the active participants in the process of governance. The rulers are no longer the masters of the people. They are now the servants of the people. The people are now the masters of their own destiny. The rulers are now the servants of the people. The people are now the masters of their own destiny.

Military tourism show? J17C04

By [illegible] and [illegible]

WASHINGTON, D.C. — The Pentagon is planning a major military tourism show, a move that critics say will glorify war and undermine efforts to end the conflict in Iraq.

The show, which is set to take place in the near future, will feature a variety of military exhibits, including tanks, aircraft, and weapons. It is expected to attract thousands of visitors, including members of the public and foreign dignitaries.

However, some critics argue that the show is a waste of money and that the funds should be used to support the troops in Iraq. They also worry that the show will give the impression that the military is invincible and that the war is justified.

The show is being organized by the Department of Defense and is expected to be a major success. It will be held at a large venue in Washington, D.C., and will feature a variety of military exhibits, including tanks, aircraft, and weapons. It is expected to attract thousands of visitors, including members of the public and foreign dignitaries.

However, some critics argue that the show is a waste of money and that the funds should be used to support the troops in Iraq. They also worry that the show will give the impression that the military is invincible and that the war is justified.

WHAT THEY SAY:

Figure 1 is a 3D scatter plot titled "Relationship between N and P". The x-axis is labeled "N" and ranges from 0 to 10. The y-axis is labeled "P" and ranges from 0 to 10. The z-axis is labeled "Family" and ranges from 1 to 15. The plot shows a series of data points representing the relationship between the number of children (N) and the number of parents (P) for 15 different families. The points are scattered in a 3D space, with some points showing a clear positive correlation between N and P, while others show a more complex relationship. The plot is a wireframe with points connected by lines, forming a grid-like structure.

ADB projects in Asia get rating of 'poor'

Dispute may
derail Asian
economic plan

By David P. Brown

MANILA, Philippines — Asian Development Bank (ADB) projects in Asia have been given a rating of "poor" by the bank's independent watchdog, the Asian Development Bank Inspection Panel (ADIP). The panel's report, released last week, says that the bank's projects in Asia have been "poorly managed" and that the bank's management has been "ineffective" in addressing the problems. The panel also says that the bank's projects have been "poorly designed" and that the bank's management has been "ineffective" in addressing the problems.

Mayweather rant means he won't fight Pacquiao ever

MANILA, Philippines — Manny Pacquiao's opponent, Floyd Mayweather Jr., has made it clear that he will not fight Pacquiao. Mayweather, who is a former world champion, said in a recent interview that he does not want to fight Pacquiao because of his "rant" about the fight. Mayweather said that he does not want to fight Pacquiao because he does not want to be "punching a man who is not a fighter."

After SC ruling, farmers told unity key to agrarian justice

Dr. Thomas Brown

Lack of skills surfaces as few get jobs in fairs

[illegible]

The following table shows the results of the analysis of variance for the effect of the type of soil on the growth of the plants. The data are presented in the form of a table with 4 columns: Type of soil, Height (cm), Weight (g), and Number of leaves. The rows represent the different types of soil used in the experiment.

Type of soil	Height (cm)	Weight (g)	Number of leaves
Soil A	15.2	12.5	8
Soil B	18.7	15.3	10
Soil C	22.1	18.9	12
Soil D	25.6	22.4	14
Soil E	28.3	25.7	16
Soil F	31.9	29.1	18
Soil G	35.4	32.6	20
Soil H	38.8	36.0	22
Soil I	42.3	39.5	24
Soil J	45.7	42.9	26

The results indicate that the growth of the plants is significantly affected by the type of soil. The plants grown in Soil J (the most fertile soil) show the highest growth, with a height of 45.7 cm, a weight of 42.9 g, and 26 leaves. The plants grown in Soil A (the least fertile soil) show the lowest growth, with a height of 15.2 cm, a weight of 12.5 g, and 8 leaves.

Trucks were

LA links ABS-CBN petition on copyright infringement

By Philip C. Mased

MANILA, Feb. 12 (PNA) — The Department of Justice (DOJ) has filed a petition with the National Bureau of Investigation (NBI) to investigate the alleged copyright infringement of ABS-CBN by the Philippine television network.

The DOJ said it received a complaint from the Philippine Copyright Commission (PCC) regarding the alleged infringement of ABS-CBN's copyright by the Philippine television network.

The PCC said it received a complaint from the Philippine Copyright Commission (PCC) regarding the alleged infringement of ABS-CBN's copyright by the Philippine television network.

'DEA can ask Panama to waive diplomat's immunity'

By Philip C. Salinas

PHILIP C. SALINAS is a senior editor at Metro. He has been with the publication since 1995. He is a graduate of the University of the Philippines and has a master's degree in journalism. He has worked for several other news organizations and has been a frequent contributor to various media outlets. He is currently based in Manila, Philippines.

Manila, Philippines (AP) — The U.S. Department of Justice said Tuesday it is considering asking Panama to waive the diplomatic immunity of a Panamanian diplomat who is accused of being involved in a bribery scheme to influence the outcome of the 2009 Philippine presidential election.

Camelec junks election protest vs Pasay mayor

By Raymond Salinas

MANILA, Philippines (AP) — The Commission on Elections (COMELEC) has rejected a protest filed by a group of voters in Pasay City against the results of the recent local elections. The protest was filed by a group of voters who claimed that the results were fraudulent. However, COMELEC found no evidence to support their claims and therefore rejected the protest.

Manila's Bay View P100

MANILA, Philippines (AP) — A new study by a local real estate firm has found that the average price of a house in Manila is now P100,000. This is a significant increase from the average price of P50,000 just a few years ago. The study also found that the demand for housing in Manila is still high, despite the economic challenges facing the country.

Computer Jives a bill

MANILA, Philippines (AP) — A bill to regulate the use of computers in the workplace has been introduced in the Philippine House of Representatives. The bill, known as the Computer Use in the Workplace Act, aims to protect the privacy of employees and to ensure that computers are used for work-related purposes only. The bill has received support from several lawmakers and is expected to be passed in the near future.

Dissident seeks asylum, fans US-China tensions

U.S. State Dept. has said it is considering a request for political asylum by a Chinese dissident who has been living in the U.S. for several years. The State Dept. said it is not yet clear whether the man, who is known only as "X," is a genuine dissident or a spy. X is a former member of the Chinese People's Liberation Army and has been living in the U.S. since 1989. He has been active in the U.S. Chinese community and has been involved in various activities, including the sale of military equipment to the U.S. military.

X, a Chinese dissident, is seen in a photo taken in the U.S.

PFI urged to ratchet up infra spending

PHILIPPINE INFRASTRUCTURE DEVELOPMENT CORPORATION (PFI) is urged to ratchet up its infrastructure spending to meet the growing demand for infrastructure projects in the country, according to a report by the Asian Development Bank (ADB).

The ADB report, titled "Philippines: Infrastructure Development Strategy," states that the PFI should focus on improving the quality of infrastructure projects and increasing the transparency of the bidding process. It also recommends that the PFI should establish a dedicated infrastructure fund to finance its projects.

The report further notes that the PFI should also consider the environmental impact of its projects and ensure that they are socially and environmentally sustainable. It also suggests that the PFI should work closely with the private sector to develop and implement infrastructure projects.

Asians' infra fund to start lending to members

By Ben C. Santos

THE ASIAN INFRASTRUCTURE FUND (AIF) is set to start lending to its members, according to a report by the Asian Development Bank (ADB). The AIF is a multi-lateral development bank that was established in 2000 to provide financing for infrastructure projects in the Asia-Pacific region.

The AIF has a capital of \$10 billion, with \$5 billion contributed by the Asian Development Bank and \$5 billion contributed by its members. The AIF is currently lending to its members for a variety of infrastructure projects, including roads, bridges, ports, and airports.

The AIF is also planning to expand its lending to other infrastructure projects in the region. It is currently in the process of raising additional capital to increase its lending capacity.

GT Capital takes full control of property unit

By Steve L. Burdette

GT Capital, a private equity firm, has taken full control of the property unit of the General Technology Corp. (GT) after a series of transactions. The move is part of a larger strategy to restructure the company and improve its financial performance. GT Capital, which is led by a group of investors, has been working to gain a majority stake in the property unit for several months. The acquisition is expected to be completed by the end of the year.

P&B of PO fund earmarked for Federal projects

The Public Works Administration (PWA) has announced that it will use the proceeds from the sale of the Public Works Administration (PWA) fund to finance federal projects. The fund, which was established in 1933, is one of the largest sources of federal funding for infrastructure projects. The PWA has been working to raise money for the fund for several years, and the sale of the fund is a major step in that process.

Figure 1 is a line graph showing the percentage of total protein in the supernatant versus the percentage of total protein in the pellet for various proteins. The y-axis is labeled 'Protein' and ranges from 0 to 100. The x-axis is labeled 'Protein' and ranges from 0 to 100. The legend indicates: 100% (solid line), 50% (dashed line), and 25% (dotted line). The graph shows that for most proteins, the percentage in the supernatant is higher than in the pellet, with some exceptions like BSA and IgG.

The best makeup primers for your skin

After all, the summer months are the perfect time to experiment with new makeup products. And if you're looking for a primer that will keep your makeup in place all day long, you've come to the right place. We've tested a variety of primers to find the best ones for your skin type.

TESTING THE TUBES

So to Wha

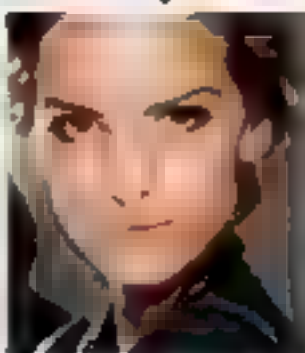

Photo: [illegible]

When it comes to makeup primers, there are a lot of options out there. Some are designed for oily skin, some for dry skin, and some for combination skin. We've tested a variety of primers to find the best ones for your skin type.

For oily skin, we recommend a primer that is oil-free and non-comedogenic. For dry skin, we recommend a primer that is hydrating and contains ingredients like hyaluronic acid. For combination skin, we recommend a primer that is balanced and works well for both oily and dry areas.

Smart Gals say: 10 summer hair products

After all, the summer months are the perfect time to experiment with new hair products. And if you're looking for a product that will keep your hair in place all day long, you've come to the right place. We've tested a variety of hair products to find the best ones for your hair type.

Smart Gals say: 10 summer hair products

Photo: [illegible]

For straight hair, we recommend a product that is lightweight and easy to apply. For wavy hair, we recommend a product that is hydrating and helps to define the waves. For curly hair, we recommend a product that is moisturizing and helps to reduce frizz.

Abstract

[illegible]

ENTERTAINMENT

Making show biz safe for young actors

Former child stars must now experience and agree that production work at all should start at home

After the 1980s, the industry was hit with a wave of child labor laws. The new rules, which were passed in 1988, required that all child actors be accompanied by a parent or guardian at all times. This was a major step forward in protecting young actors from exploitation.

By the time the new laws were passed, the industry had already seen a number of cases of child labor exploitation. The new laws were a response to these cases and were designed to protect young actors from future exploitation.

The new laws were a major step forward in protecting young actors from exploitation. They required that all child actors be accompanied by a parent or guardian at all times.

The new laws were a major step forward in protecting young actors from exploitation. They required that all child actors be accompanied by a parent or guardian at all times.

The new laws were a major step forward in protecting young actors from exploitation. They required that all child actors be accompanied by a parent or guardian at all times.

The new laws were a major step forward in protecting young actors from exploitation. They required that all child actors be accompanied by a parent or guardian at all times.
